

CM&E Inspection Planning Report

Report run on: December 8, 2022 10:56:14 PM EST

Version 6.0

User Selection Criteria

Location: Region 03
Universe Type: Biennial Report Status
Universe: Large Quantity Generator
Report Cycle: 2019
Inspection Type: CEI
Include Pharmacy/Retail: Yes
Sort: Handler Name, Handler ID

Report Results

Number of Sites: 1812

Number of Pages: 116

Report Description

This report is designed to assist regulators in determining handlers that need to be inspected. The user must specify a universe and indicate whether sites meeting the universe should be determined using the most current data or using data from a specified biennial report cycle. The user may also elect to exclude pharmacy and retail stores (defined as NAICS starting with 44 or 45) from the report. The report displays the Handler ID, Handler Name, Location Address, County, State District, TSDF, Generator Status, Active Status, and Date of the Last Inspection (for the inspection type specified by the user).

Note: If the user elects to use Biennial Report information to determine the universe, the information in the TSDF and Gen. Status columns of the report will be reported from the Biennial Report data not the current data as reported in

*** WARNING *** Sensitive information may be displayed on this report. *** WARNING ***

List of Handler Universe Abbreviations	
Gen. Status	Generator Status
	LQG - Large Quantity Generator
	SQG - Small Quantity Generator
	VSQG - Very Small Quantity Generator
	N - Non-Generator (verified)
Oper. TSDF	Operating TSDF Universe
	L - Land Disposal
	I - Incinerator
	B - BIF
	S - Storage
	T - Treatment
	H - SWMU
